

RONALD ADUNGET

IT Supervisor | Infrastructure, Network & Systems Support Specialist

Moroto / Kampala, Uganda | +256 785 708 124 | adungetronald2@gmail.com | linkedin.com/in/adunget-ronald

PROFESSIONAL SUMMARY

IT professional with 8+ years of progressive experience managing end-to-end technology infrastructure — networks, servers, hardware, user support and IT security — across multiple operational sites. Currently the sole IT lead for a national organisation, independently running the full technology stack (network administration, Microsoft 365/Azure infrastructure, systems support, cybersecurity policy and IT documentation) with the accountability profile of an IT Manager. Experienced supervising field teams and coordinating with external vendors and service providers on constrained budgets. Comfortable working across technical and non-technical departments in fast-paced, multi-site operational environments, and available to relocate to Kapeeka, Nakaseke District.

CORE COMPETENCIES

Network & Infrastructure LAN/WAN & Wi-Fi, TCP/IP, DHCP/DNS, routers, switches, firewalls, servers	Systems & User Support Windows/M365, hardware troubleshooting, asset management, ERP/beneficiary systems	Security & Access Azure AD/Entra ID, access control, IT policy, backup, cybersecurity training
Vendor & Project Coordination Service-provider management, procurement, site setup & commissioning	Team Supervision Task allocation, coaching, multi-department coordination	Documentation & Reporting IT policy authoring, operations manuals, incident & asset records

PROFESSIONAL EXPERIENCE

IT Officer (Head of Technology) | Andre Foods International (AFI) — Moroto / National, Uganda Jan 2022 – Present

- Sole IT lead for a national NGO; independently manage network infrastructure, servers, hardware and user support across multiple field locations — equivalent to an IT Manager/Supervisor accountability for 4+ years.
- Administer Microsoft Entra ID (Azure AD) across the organisation: create/deactivate user accounts, enforce security policies, and manage role-based access rights.
- Authored the organisation's first IT Policy and operations manuals; run regular cybersecurity, password-security and phishing-awareness training for staff.
- Provide multi-site remote and on-site technical support, troubleshooting hardware, software, server and connectivity issues for administration, finance, HR and field teams.
- Coordinate with external vendors and service providers on equipment procurement, repairs and Microsoft licensing (secured a Microsoft 365 Nonprofit grant, migrating all staff to Exchange Online).
- Led migration of web hosting and domain ownership from a third-party provider and rebuilt the organisational website, taking full technical ownership in-house.
- Automated manual workflows (leave, vehicle logs, assets, requisitions) using Power Automate and SharePoint, improving turnaround and record accuracy at zero licensing cost.

IT Assistant | Andre Foods International (AFI) — Moroto/Napak, Uganda Sep 2021 – Dec 2021

- Primary technical interface between WFP and AFI for the rollout of WFP's SCOPE/CODA beneficiary and identity-management platforms across the Karamoja region.
- Performed system configuration, troubleshooting and user-access support on live operational identity-management systems.
- Documented recurring technical issues and escalated system-improvement recommendations to WFP's technical teams.

Food Distribution Supervisor | Andre Foods International (AFI) — Moroto/Napak, Uganda Dec 2020 – Aug 2021

- Supervised field teams delivering end-to-end food-commodity distribution, allocating daily tasks and monitoring completion against tight timelines.
- Maintained accountability records and coordinated with partner systems for beneficiary verification and reporting — direct people-supervision experience in a high-pressure operational setting.

Business Support Assistant – IT (SCOPE/CODA) | *World Food Programme (WFP) — Moroto, Uganda* Apr 2018 – Aug 2020

- Provided specialist technical support for WFP's SCOPE and CODA systems, and managed local network, hardware and software infrastructure.
- Troubleshoot system and network failures in field-based operations and supported user training on core platforms.

Field Consultant (Research, Registration & Card Issuance) | *Various Organisations — Uganda* 2011 – 2018 (Periodic)

- Conducted field-based data-collection, identity-registration and card-issuance exercises for NGO and government programmes.

TECHNICAL SKILLS

Networking: LAN/WAN/Wi-Fi configuration & troubleshooting, TCP/IP, DHCP, DNS, router/switch/firewall administration

Systems: Windows desktop & server support, Microsoft 365/Office, Azure AD/Entra ID, SharePoint, Exchange Online, Power Automate

Security & Data: User account & access management, endpoint protection, IT policy development, backup & data-recovery procedures

Applications: WFP SCOPE/CODA (ERP-style beneficiary management platforms), WordPress & web/domain administration

Management: IT asset & license management, incident tracking, vendor coordination, documentation & reporting

EDUCATION & PROFESSIONAL DEVELOPMENT

Bachelor of Information Technology (in progress — final units pending) — Uganda, since 2010; supplemented by 8+ years of hands-on, work-based IT leadership

Continuing professional development through applied infrastructure, security and systems work; open to pursuing CCNA/CompTIA certification.

KEY ACHIEVEMENTS

- Delivered a full Microsoft 365 digital transformation at zero licensing cost via a successful Microsoft Nonprofit grant application.
- Pioneered WFP SCOPE/CODA beneficiary-system rollout across the Karamoja region — rare hands-on deployment expertise in East Africa.
- Sole IT resource running national multi-site NGO infrastructure at IT Manager/Director level of accountability for 4+ consecutive years.
- Automated 4+ core organisational workflows using Microsoft 365 tools, eliminating paper-based processes.
