

RONALD ADUNGET

IT Systems & Digital Transformation Specialist

Moroto / Kampala, Uganda | +256 785 708 124 | adungetronald2@gmail.com | linkedin.com/in/adunget-ronald

PROFESSIONAL SUMMARY

Results-driven IT Systems Specialist with 8+ years of progressive experience delivering end-to-end technology solutions in complex humanitarian and NGO environments. Sole IT lead for a national NGO, independently architecting and managing the full technology ecosystem — from Microsoft 365 infrastructure and identity management to web systems, cybersecurity policy, process automation and multi-site technical support. Proven track record with WFP beneficiary-management systems (SCOPE/CODA), having pioneered their rollout across the Karamoja region. Skilled at delivering enterprise-grade IT outcomes on constrained budgets through strategic use of cloud platforms and automation tools.

CORE COMPETENCIES

Infrastructure & Systems Microsoft 365 & Azure AD/Entra, network administration, cloud platform administration	Humanitarian Tech & Systems WFP SCOPE/CODA, beneficiary identity management, field-level technical support, rollout & training	Digital Transformation Process automation (Power Automate), WordPress & web management, IT policy, data protection training

PROFESSIONAL EXPERIENCE

IT Officer (Head of Technology) | Andre Foods International (AFI) — Moroto / National Jan 2022 – Present

- Serve as the sole IT lead for a national NGO, independently managing the entire technology infrastructure across multiple field locations in Uganda.
- Secured full organisational ownership of web hosting and domain management, migrating from a third-party provider and rebuilding the organisation's website from the ground up using WordPress.
- Successfully applied for and secured a Microsoft 365 for Nonprofits grant, migrating all staff communication to customised organisational email addresses hosted on Microsoft Exchange.
- Administer Microsoft Entra ID (Azure AD) for all staff: create and deactivate user accounts, enforce security policies, and manage access controls across the organisation.
- Pioneered a zero-cost process-automation initiative using Microsoft 365 tools (Power Automate, SharePoint, Forms), automating Vehicle Log Sheets, Leave Management, Asset Management and Item Requisition workflows, eliminating paper-based processes.
- Authored and implemented the organisation's first-ever IT Policy and developed comprehensive IT operations manuals to standardise and safeguard technology use.
- Manage all organisational social media platforms, maintaining a consistent digital presence.
- Deliver data-protection and cybersecurity awareness training to all staff, ensuring GDPR/DPA compliance within NGO operations.
- Provide multi-site remote and physical technical support to field staff across Uganda, troubleshooting hardware, software and connectivity challenges.

IT Assistant | Andre Foods International (AFI) — Moroto/Napak, Uganda Sep 2021 – Dec 2021

- Served as the primary interface between WFP and AFI to implement WFP's Beneficiary Identity Management systems for food-assistance delivery.
- Played a pioneering role in the rollout of WFP's SCOPE/CODA beneficiary-management systems across the entire Karamoja region.
- Performed configuration, troubleshooting and system improvement on WFP identification and assistance-delivery platforms.
- Documented operational challenges and provided improvement recommendations to WFP system teams.

Food Distribution Supervisor | Andre Foods International (AFI) — Moroto/Napak, Uganda Dec 2020 – Aug 2021

- Supervised end-to-end food-commodity distribution to malnourished communities across Karamoja, ensuring accurate delivery to beneficiaries.

- Planned, executed and reported on all programme activities as the designated supervisor, maintaining accountability for food resources.
- Coordinated with WFP partner systems for beneficiary verification and distribution reporting.

Business Support Assistant – IT (SCOPE/CODA) | *World Food Programme (WFP) — Moroto, Uganda* Apr 2018 – Aug 2020

- Provided specialist technical support for WFP's SCOPE and CODA information systems, ensuring uninterrupted operational functionality.
- Managed IT infrastructure including networks, hardware and software systems used in food-assistance programme delivery.
- Troubleshoot complex system failures and network issues in field-based humanitarian operations.
- Supported system training and capacity building for WFP and partner staff on SCOPE/CODA platforms.

Field Consultant (Research, Registration & Card Issuance) | *Various Organisations — Uganda* 2011 – 2018 (Periodic)

- Conducted field-based research assignments and individual identity-registration exercises for various NGO and government programmes.
- Supported card-issuance operations and data collection for beneficiary programmes across Uganda.

TECHNICAL SKILLS

Platforms: Microsoft 365 • Azure Active Directory/Entra ID • SharePoint • Exchange Online • Power Automate

Systems: WFP SCOPE • WFP CODA • Beneficiary ID Management • IT Infrastructure Management

Web & CMS: WordPress • Web Hosting & DNS Management • Domain Administration • Social Media Management

IT Management: IT Policy Development • IT Documentation & Manuals • User Account Administration • Remote & Field Support

Soft Skills: Strategic IT Planning • Staff Training & Capacity Building • Data Protection (NGO) • Cross-functional Coordination

EDUCATION

Bachelor of Information Technology (in progress — final units pending) — Uganda, since 2010; supplemented by continuing professional development pursued through work-based expertise and self-directed learning.

KEY ACHIEVEMENTS & IMPACT

- Delivered full Microsoft 365 non-profit digital transformation for AFI at zero licensing cost through a successful Microsoft grant application.
- Pioneered rollout of WFP SCOPE/CODA beneficiary-management systems across the Karamoja region — one of few individuals with hands-on deployment expertise in East Africa.
- Sole IT resource managing national-level NGO infrastructure across multiple Ugandan locations, performing at IT Manager/Director level for 4+ consecutive years.
- Built and launched AFI's organisational website, transferring domain ownership and removing dependency on a third-party provider.
- Automated 4+ critical organisational workflows (leave, vehicles, assets, requisitions) using Microsoft 365 tools at zero additional cost, reducing paper-based delays.
